The record of crimes and disorders throughout the United States during the Christmas holidays exceeds, we think, that of any previous year. Murders and other horrors were far too numerous to mention.

The Columbia State gives warning of an approaching searcity of corn and calls upon farmers thus early to make up their minds to plant a heavy crop this year. Various causes are conspiring to bring about the predicted scareity. The last crop fell short of what was expected, a greater quantity than ever before is being fed to hogs, but, more than all, the European demand is increasing at a rate beyond all precedent and expectation. Farmers should 31st ult. make a note of these conditions, and let corn have a large place in the plans they are now laying for another year

A Confederate Veteran Camp in New York has adopted the following resolution, which, we believe, expresses the real and the true sentiment of the South: "Resolved. That the Confederate Veteran Camp of New York condemns in unmeasured terms the efforts of Senator Butler, of North Carolina, (who is not a Confederate veteran) to debauch the manhood of the South by seeking to obtain pensions for ex-Confederate soldiers from the United States, and that any similar effort by any Southern member of Congress will be abhorrent to the camp and meet with unqualified condemnation."

A great many would-be funny paragraphers usually have much to say about new year resolutions, and the folly of making them, when such a large per cent are broken before their waddling clothes are discarded—all of which is entirely wrong and calculated to hinder many a poor fellow from at last making an honest, earnest effort to mend his ways. In our humble judgment it is better to resolve to do better and fail, than it is to fail to make the resolution. It at least shows the desire to leave off some bad habit the desire to leave off some bad habit or take up some laudable work, coupled with a determination, however weak or strong it may be, to execute the desire. The value of a new year resolution, of course, depends upon the will-power of the maker, and we must a lmit that a good resolution, based on a weak will-power, and opposed by previous perverse habits, is a rather blacky guarantee of future rectitude. But shaky as it is, it is far better than

Mr. D. L. Fant has opened a bicycle shop and grocery store in our place. We wish for him a liberal patronage. Mr. Editor, in company with Rev. J. F. Singleton, we visited our County home for the unfortunate. We were pleased to see that Mr. King was caring for the unfortunates so well. We found them well clothed, well fed, well housed and well provided for in every particular. We asked one of the inmates about preaching, and he told us that they had preaching once a month. Mr. King has improved the farm so that it is second to none in the county. He has 35 acres in wheat, and it is all up, looking nice. He tells us that he makes one bale of cotton to the acre, and raises an abundance of cabbage, turnips, potatoes, goobers, &c. We are glad that the grand old County of Anderson treata her unfortunates so well. We are glad that she stands first of all the counties of the State in spending more money on her unfortunates and providing better for them spending more money on her unfortu-nates and providing better for them. Our farmers have just finished sowing wheat, and quite a good crop has been put in. We are beginning to realize the importance of making something besides cotton. The cotton crop will necessarily be curtailed, from the fact that there has been an increase in acreage of the wheat and oat crop. Every farmer should look the situation squarely in the face and set his stakes squarely in the face and set his stakes
